

Step into the world of a doctor

Alfaisal University College of Medicine

Summer Camp: June 24th – July 12th, 2018

Learn from the best...

Planning to become a doctor then join the best: AU-COM is ranked 2nd in the Kingdom and 7th in the Arab region. Our graduates enter residency programs in the USA, Canada and UK. Spend your summer interacting with our students, engaging with faculty, experience the thrill of the Anatomy, Physiology and Clinical Sciences laboratories. Learn through hands-on practice, and experience how doctors apply their knowledge to clinical cases. Visit the hospital to see first-hand patient care!

Experience the adventure

This three week summer camp will guide you through the CVS of the human body. Experience the excitement of dissecting the heart, listen to specialists explain the intricacies of its function, and discover how to recognize abnormalities. Then apply your knowledge and critical thinking to clinical cases in Problem Based Learning, and enhance your skills in Team Based Learning. You will be supported by current students and faculty allowing you to ask questions, get answers, and be prepared for university.

Activities

- Examine prosected human organs
- Dissect the heart
- Record an ECG and listen to heart sounds
- Take patient vital signs
- Interpret patient cases
- Visit the hospital and skills center
